House of Mercury wishes to establish good standings with other alliances for mutual benefit by the trade and sharing of resources made possible. Trade goods purchased and sold at your stations, mining done locally, contacts made, and more skills available. In return, we're looking for permission to dock in your stations, mine in your systems, destroy pirate npc's, and travel through safely without harassment. We may also like to negotiate with you to launch POS's that will in no way contest your sovereignty, and on your terms.

The House of Mercury will not spy on you, nor will it sell any information to any other parties. The House has no desire for territorial conquest in your area or to challenge the sovereignty of your reigning power, nor will it support any other organisations in that. The House will uphold the rules of whatever power or government it is currently residing under. The House of Mercury wishes the freedom to trade and initiate industrial projects throughout New Eden, for the benefit of all. The House exists for merchants and industrialists, Mercurians.
